# WHY CHOOSE CHAUSSON?

## ZOOM ON STRUCTURE

INSULATION, RESISTANCE & PROTECTION

A unique design provides better insulation, greater resistance, and improved protection\*.

All our **Low profiles** and **Low profiles** have Grade 3 insulation certification ensuring maximum comfort in both summer and winter.

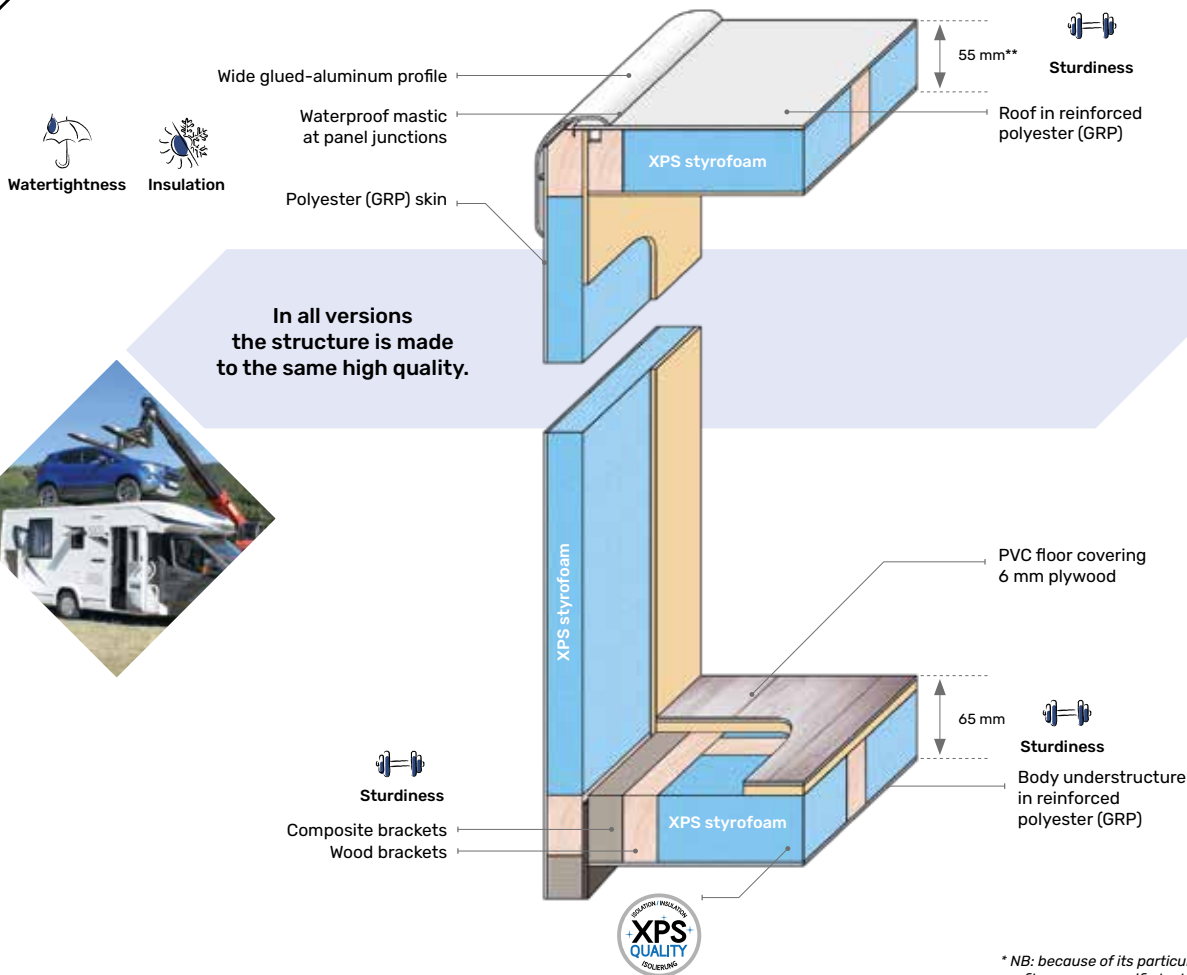

**Proof of our confidence: a water-tightness 7-year warranty!**

Subject to an annual inspection by a certified member of our network.

## \*LOW PROFILES & **Low Profiles**

IRP is a production concept like no other on the market thanks to the exceptional density of its roofs/floors and the combination of wood and composite, which ensures the structure is stable and durable.

\* NB: because of its particular shape, the roof of our overcabs/S Low profiles uses a specific technology. 35 mm thickness, EPS insulation.

# LOW PROFILES

## WHY CHOOSE TITANIUM ULTIMATE?

### ZOOM ON THE FEATURES

#### FUEL HEATING

Easy to refuel

Easy to use,  
no manipulation

Less loaded weight  
and additional space

Use while on the road  
with total safety

**TECHNI  
BOX**

#### TECHNIBOX

The all-in-one technical area

##### ELECTRICAL TECHNICAL AREA

The electrical technical area gives you access to the electrical panel: no more contortions when you change a fuse!

##### CLEAN WATER TECHNICAL AREA

The clean water area lets you: fill the water reservoir, adjust reservoir capacity according to the number of travelers and/or the load transported, easily clean the reservoir for maximum hygiene.

#### HIGH-QUALITY BEDDING

##### All our mattresses\* are:

- manufactured in France,
- specially designed for our motorhomes with high-quality foam (35kg/m<sup>3</sup>),
- a layer of reinforced wadding (300 g) for a soft feel and optimal-quality bedding.

\*main bed

##### 100% LED

##### UNIT LIGHTING

to save 10 times as much energy and increase lifespan by 30.

##### THE FRIDGE WITH AUTOMATIC ENERGY SELECTION

AES, Automatic Energy Selection, (12/230 V/gaz). (except 660)

##### THE FULLY-EQUIPPED GARAGE

holds, equipped with stowage hooks, electric plugs 12 V/230 V and 2 doors.

##### SHOWER STALLS WITH A DOUBLE DRAIN

to make draining easier even if you're not on level ground.

## KEY INNOVATIONS

Smart  
lounge

### SMARTLOUNGE EFFECT

Each of the two bench seats can quickly be transformed into comfortable seats for road travel (Isofix\*).

ISOFIX

*\* The Isofix system makes it easier to install the car seat and adds a third anchor point to keep your children safe.*

### THE SMART STORAGE SYSTEM

EASY  
BOX

- On the outside, you can easily adjust the garage height for storing a scooter or bikes,
- On the inside, there are many easy-to-reach storage areas.

*Featured in the Low profile 720.*

### THE SOLUTION FOR MORE ROOM

EASYBED

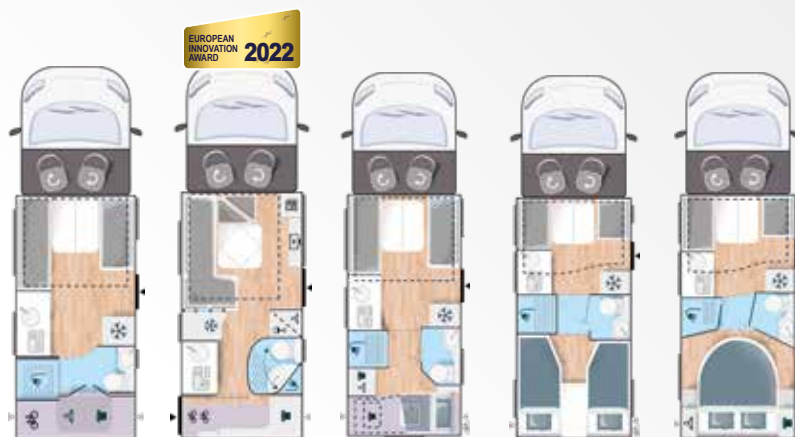

The EasyBed system lets you raise or lower the bed to adjust the size of the hold area according to your needs.

*It is found in models with island beds.*

# CHAUSSON

TRIGANO VDL

1, av. de Rochebonne - CS 69003  
07302 Tournon-sur-Rhône Cedex - FRANCE  
contact@chausson.tm.fr

Some models photographed in this catalogue may be shown with equipment supplied as an option. The characteristics of photographed models may vary from one country to the next. Despite the care taken in producing this catalogue, this cannot be viewed as a contractual document. Chausson reserves the right to modify its models without prior notice. Chausson cannot be held liable for any modifications made by its suppliers nor typographical errors when printing these documents. It is forbidden to reproduce, even partially, text or document. Do not litter the public highway.

Your retailer is at your disposal to advise you and provide you with any additional information. Where there are multilingual versions, the French text is the binding version.

**The optional "towing" equipment can in certain cases change the number of passengers on the car registration papers.** Your dealer will be able to give you more information.

**Weight ready for use:** empty weight ready for use includes the driver's weight (75 kg) and 1L clean water, 90% of fuel and 100% of gas. The empty weights ready for use on the list take into account only standard equipment upon shipment from the factory. European regulations tolerate a difference of +/- 5% on empty weight ready for use. The vehicle maker reserves the right to modify.

**You may be able to find certain heavy accessories like large blinds or generators in the marketplace.** The weight of these accessories should be deducted from the payload and could possibly lead to a reduction in the actual passenger numbers. It is therefore important not to exceed the maximum loads on axles and the technically acceptable loaded weight when the vehicle is fully loaded.

**Clean water reservoir capacity; capacity is 1 L, it must comply with regulations this is up to the user to adapt loads and the number of passengers to the vehicle's loaded weight.** To do this, clean water reservoir capacity can be adjusted by the user to avoid reducing the number of passengers.
