- Mass in running order: the mass in running order includes the weight of the driver (75 kg) as well as 1 L clean water, 90% fuel and 100% gas, indicated only take into account the standard equipment when leaving the factory. European regulations tolerate a difference of +/- 5% on empty weight ready for use. The vehicle maker reserves the right to modify.
- Accessories and equipments fitted as an option are not included when determining the weight. Their weight should therefore be deducted from the available payload.
- You may be able to find certain heavy accessories like large blinds or generators in the marketplace. The weight of these accessories should be deducted from the payload and could possibly lead to a reduction in the actual passenger numbers. It is therefore important not to exceed the maximum loads on axles and the technically acceptable loaded weight when the vehicle is fully loaded.
- The fresh water reservoir capacity for homologation is 1 L, the vehicle must comply with regulations, therefore it is up to the user to adapt loads and the number of passengers to the vehicle's permitted maximum loaded weight. To do this, the clean water reservoir capacity may be adjusted by the user to avoid reducing the number of passengers.
- Some models photographed in this catalogue may be shown with equipment supplied as an option. The characteristics of photographed models may vary from one country to the next. Despite the care taken in producing this catalogue, this cannot be viewed as a contractual document. Chausson reserves the right to modify its models without prior notice. Chausson cannot be held liable for any modifications made by its suppliers nor typographical errors when printing these documents. It is forbidden to reproduce, even partially, text or document. Do not litter the public highway.
- Your retailer is at your disposal to advise you and provide you with any additional information.
- Where there are multilingual versions, the French text is the binding version.
- All technical characteristics (texts and photos) valid at the time of printing (August 2021) are provided by Chausson for general guidance.
