**CHAUSSON**  
An advance journey

# 40 years of innovation

Chausson is a subsidiary of the TRIGANO Group, Europe's number one in recreational vehicles.

Visit our new site  
[www.chausson-motorhomes.com](http://www.chausson-motorhomes.com)

[www.youtube.com/ChaussonCampingCar](http://www.youtube.com/ChaussonCampingCar)

[www.instagram.com/chaussonmotorhome](http://www.instagram.com/chaussonmotorhome)

Hertz, the world's leading rental company has chosen Chausson... Solid proof of our reliability!

In 1980, the first Chausson vehicle, known as Odyssée 4000, was presented at the Paris Auto Show.

Odyssée 4000 was a fitted van that would give rise to a number of vans, such as Cedra, Madras or Taïga.

In 1984, the first Chausson motorhome appeared. This was the Acapulco overcab.

Forty years after the company was created, Chausson has become a major leisure vehicle manufacturer, but it hasn't forgotten its first love. Vans are a solid company value, and this catalog dedicates a special section to them.

Chausson is unanimously recognized as an innovative manufacturer. Of course, innovation has been part of our DNA for forty years: you'll see what we mean in the following pages.

MARTLOUNGE  
RAMICVIEW  
EM EASYBED

For the French market only.

insulated unit  
entry step.**  
All our models are  
equipped with a protective  
hull under the unit entry step  
that ensures better  
soundproofing and  
thermal insulation

# A bedroom or a bathroom? Why not both?

- 1 / At night.
- 2 / During the day.
- 3 / Lower position.
- 4 / Upper position.

SmartSuite is unique on the market:

- during the day, the island bed disappears into the roof and leaves room for a big bathroom with a dual washbasin,
- at night, just flip the switch to lower the bed.

5 / Large folding mirror.

6 / Many storages.

7 / Double washbasins.

8 / Transverse double-door bathroom.

Featured in the low profile 778.

## SmartLounge effect...

This very clever new lounge concept provides comfort, attractiveness and practicality both on the road and when you stop.

Each of the two bench seats can quickly be transformed into comfortable seats for road travel (Isofix\*).

Look for the following in low profile and A-class vehicles:

- maxi lounge: 520, 630, 640, 650, 720,
- island beds: 708, 768XLB, 778, 7008, 7068XLB,
- twin beds: 747GA, 757, 767GA, 7047GA.

\* The Isofix system makes it easier to install the car seat and adds a third anchor point to keep your children safe.

The 640 received the prestigious European Prize for Innovation from a team of experts who were delighted by the ingenuity of the SmartLounge system.

Patent pending.

# Unique on the market

Duo Bed features two foldaway bunk electrically powered beds:

- during the day, the beds slide into the ceiling, leaving room for a lounge,
- at night, just flip the switch to lower one or both beds.

1

2

3

1 / Two beds tucked into the ceiling, in daytime position.

2 / Two beds in medium position for one occupant.

3 / Two beds in nighttime position for two occupants.

Decor not representative of the 2020 line.

Featured in the 634 and 716 low profiles.  
(Design patents).

Patent pending.

## The smart storage system

This outstandingly smart concept proves that even in a compact motorhome, storage is not an issue:

- On the outside, you can easily adjust the garage height for storing a scooter or bikes,
- On the inside, there are many easy-to-reach storage areas.

Look for all this in models 634 (design patent), 720 and 778.

720

778

1 / Lower position.  
2 / Upper position.

## Modularity...

Flexbox, a clever concept for vans, lets you modulate space or storage for vacation purposes or for everyday use.

You'll find it in the V697 van.

## Perfect adjustment

T-System lets you adjust table height electrically to the perfect position.

T-System is very handy when you lower the roof bed.

The table is also multi-directional, and the top can be partly raised to make it easier to move around inside.

You'll find it in all the maxi-lounge low profiles.

## The solution for more room

The EasyBed system lets you raise or lower the bed to adjust the size of the hold area according to your needs.

Use a crank to adjust hold volume. Make it higher to transport bikes, for example, or lower for bags and camping equipment.

This feature is found in low profiles 514 and C514 with an island bed.

## More room...

BedSystem means easier mattress and bed base storage in a van.

You'll find it in the V594S and V594 vans.

757 / Premium / Marshall

# Low profiles

## For tailor-made trips

- Fiat or Ford to choose
- "Grade 3" certified, the highest insulation level
- Roof and floor thickness above the market's standards
- Large dimensions beddings
- Heated, illuminated garage holds, equipped with stowage hooks, 12/230 V plugs and 2 doors

# The freedom to choose...

## CHOICE n°1 **maxi lounge low profiles**

All models ending with 0

Chausson is a pioneer with layouts that are unique on the market. They all have an extra-large entrance door and electric roof bed that slides away during the day to leave room for a SmartLounge.

- 1 / Wardrobe featuring two large doors with mirrors (630, 640, 650).
- 2 / All our roof beds are electric but can be raised manually if necessary.
- 3/ The main roof bed has a lower position that is easy to reach without having to use a ladder.
- 4 / Maxi bathroom with a very spacious shower cubicle.

## CHOICE n°2

# Island beds

All models ending with 8

They come in three sizes, with or without SmartLounge.

Once again Chausson offers an exceptional standard width of 160 cm on all classic island beds, regardless of range level.

768XLB / Premium

768XLB / Premium

778 / Premium

1 / Transverse full width bathroom.

2 / XLB, bed with outstanding dimensions of 200 x 160 cm.

3 / Hideaway island bed.

4 / Garage in upper position.

5 / Garage in lower position.

6 / Pre-equipment for a second TV as a standard feature and a second USB port.

as a standard feature and  
a second USB port.

757, a flat level floor  
from lounge to  
bedroom.

757 / Premium

627GA / Premium / Aspen

## CHOICE n°3

# Twin beds

All models ending with 7

They come in three sizes, with or without garage, without or without SmartLounge.  
In addition to an advantageous length, Chausson offers most of these models with twin beds in an exception width for the market: 90 cm.

### Garage

except for the 757

All our twin beds are equipped with an integrated system convertible in XXL bed.

## LOW PROFILES / STANDARD EQUIPMENT

**Choice of chassis**, our low-profiles are available either on Fiat or Ford, see pages 36-37.

**IRP structure**, a major innovation, see page 38.

**Water tightness guaranteed for seven years**, with an annual check-up by a certified network member.

All our low profiles are "Grade 3" certified, **the highest insulation level**, see page 39.

**An unbeatable combination of thickness**, sturdiness and insulation, well above the profession's standards.

**XPS insulation Styrofoam**, an extra-firm foam with high sound and thermal insulating power, see page 39.

### STYROFOAM™

**Double glazing windows** with resistant and elegant polyurethane, integrating shade (with aluminium coating) and screening.

**Panoramic cab roof** that opens and comes with a shade and screening. Thermoformed storage space above the cab with **LED lighting** on each side.

**Central table** that can be adjusted in height (telescopic pedestal), longitudinally and crosswise. A fold-down table is also available on certain models.

**Dual USB port** above the cab for recharging cell phones, tablets...

Prestige (Easy clean), optional Premium

Easy clean: this type of fabric has a surface coating that helps prevent staining.

**New-generation** entrance door with built-in window and blinds.

**Two standard doors** to make loading easier and more optimal. All our garage holds are heated, illuminated and equipped with 12/230 V plugs and stowage hooks whatever the finishing level.

**Swivel seats**, in the cab, with double armrests and adjustable height.

**Heating that can be used on the road**, ideal for your passengers and also very useful for warming the unit before a stop.

All our low profiles come with a standard **Technibox all-in-one technical control center**, see page 40.

**Built-in LED lighting at floor level** to create a soft atmosphere and ensure that it's easy to move around at night in the living unit.

A built-in and insulated **unit entry step**.

**LED lighting on the outside.**

For greater passenger comfort, each road seat is equipped with a **height-adjustable headrest**.

**Seat belts** corresponding to the number of regulation seats; at least four belts with three points.

## OPTIONAL PACKS

- Manual cab air conditioning
- Passenger airbag
- Cruise control and speed limiter
- Electric de-icing rearview mirrors
- Coded front bumper
- Glossed cab front grill
- Luxury techno trim level dashboard
- Flyscreen door
- Seat covers
- Panoramic skylight\*
- Black bezel lamps Fiat
- Fog lamps Ford

### Mandatory VIP pack

Premium equipment on:

- Rear external panel
- Entrance door
- LED lights
- main mattress
- Kitchen illuminated window surround & storage
- Wooden duck board & bathroom storage
- Entrance panel\*

Extra equipment:

- Central locking cab/cell
- Reversing camera
- Wraparound cab blinds
- Set of "ambiance" cushions
- 12 V fan skylight\*
- TV bracket
- Gas external socket
- External shower

# Our industrial tools and human talent

are geared to meeting your expectations...

## Climate tests

We test our motorhomes under extreme conditions (both here in Tournon and inside the TRUMA climate chamber in Munich) to ensure maximum comfort in both summer and winter.

## The quality lab

Chausson recently opened a quality laboratory equipped with the most advanced instruments for thorough testing of parts for breakage, deformation and wear.

Make a video  
visit of our  
**tests**

## 160 dealers to keep watch on your motorhome

Our network of dealers is made up exclusively of true recreational vehicle specialists who know Chausson. Chausson offers one of the market's most extensive and best-equipped European networks.

## After-sales service

Your dealer is and will always be your number one contact for support before and after your purchase. Chausson provides dealers with a made-to-measure after-sales management application, a specialized, multilingual after-sales service team and a European platform for spare parts.

## The Trigano Campus

This is the place where our dealers are trained. In addition, classes were recently organized at the Chausson plant to provide several weeks of training for all new arrivals corresponding to positions as varied as assembler, electrician or forklift operator.

## Site of Tournon-sur-Rhône, France

### Chausson is built by TRIGANO VDL

- The factory covers the equivalent of 33 football fields (or 200,000 sqm, 48,000 sqm of which are roofed),
- **one of the largest automotive production sites in Europe**, with an annual production of over 13,000 motorhomes,
- more than **900 people** to design and produce them,
- motorhomes that are sold **in 27 countries**.

Make a video  
visit to our  
manufacturing site

# The chassis, an essential element for high-quality travel

Fiat is still THE reference brand on the motorhome market and the reliability of the Ducato is well established. For service, you benefit from 1,800 specialized “Fiat Camper Assistance” workshops in Europe and 24/7 phone assistance.

White

■ can't be fitted on

(2) except from C656, 514, 515, 520, 634, 650

(3) part of the automatic pack, including nine-speed automatic transmission, Eco pack (standard on 160 HP and 180 HP vehicles), 16" alloy rims

- Motorhome chassis with a lowered center of gravity for easier access.
- The wide rear track for greater road stability and more room inside.
- Driver's **airbag**,
- **braking assistance** (ABS): an anti-lock system that keeps wheels from blocking when brakes are applied intensively,
- **dynamic trajectory control** (ESP): this program optimizes stability on the road and in curves and improves braking,
- six-speed gearbox.
- Very comfortable “**Captain's chair**” seats: these Fiat seats have a built-in headrest, a wider back, better lateral support, two armrests and a seated position that's more comfortable than ever. They are height- and angle-adjustable as a standard feature.
- Pre-equipped for cab radio and loudspeakers,
- electrically controlled windows,
- central bottle-carrier console with a cell phone compartment.
- Central locking of cab doors.
- **Radio antenna built into rear-view mirror**.
- Hubcaps on wheels,
- tire repair kit.

## New Fiat automatic transmission, option<sup>(2)</sup>

The brand-new nine-speed automatic transmission uses a torque converter to make maneuvering easier.

Driving is smooth, without jerking, and torque is continuous.

At Chausson, we have chosen reference brands that are able to supply a specifically designed chassis for the motorhome, and we have a specially equipped after-sales network trained in the leisure vehicle market.

**Ford and Chausson have been partners for over thirty years.**

**With more than seven million vehicles sold worldwide, the legendary Ford Transit has more than proven its worth.**

This year, it benefits from a facelift as much inside as outside and keeps on offering, as standard, the best equipment/price ratio on the market.

White

Diffused silver  
optional Premium

- Motorhome chassis with a lowered center of gravity for easier access.

- The wide rear track optimizes inside space and road stability.

- Driver's **airbag**,

- **braking assistance** (ABS): an anti-lock system that keeps wheels from blocking when brakes are applied intensively,

- **anti-slipping** (ASR): a system that regulates acceleration to keep the driving wheels from losing traction,

- **dynamic trajectory control** (ESP): this program optimizes stability on the road and in curves and improves braking,

- six-speed manual transmission,

- **hill-start assist function**,

- disengageable hand brake.

- Swivel seats in the cab, with double armrests and adjustable height.

- Ford audio system with AM/FM radio, Bluetooth®, USB ports and an auxiliary plug for connecting a Smartphone or hands-free phone or listening to music,

- leather-encased steering wheel.

- Central locking of cab doors.

- Wide side protectors in the body colour.

- **16" wheels**,

- tyre repair kit.

#### Ford automatic transmission option

Featuring six gears, the transmission uses a torque converter and an electronic gear-changing system.

The transmission is able to detect a slope or mountainous terrain and will automatically provide assistance on hills in "drive" mode.

## UNIQUE!

Choice of chassis  
on all low profiles

### New Ford Chassis

- Improved consumption and less polluting emissions,
- improved aerodynamics,
- electronically assisted steering,
- Stop & Start mechanism as standard,
- low-friction tires.

- direct access to main functions and reverse camera,
- Bluetooth, Streaming A2DP and 2 USB ports,
- special motorhome Europe GPS in option,

# The IRP structure, a major innovation

IRP is a major innovation that provides better **insulation**,  
greater **resistance**,  
and improved **protection**.

Whether the version, our structures are all made with the same  
**high standard of quality**

## Overcabs & low profiles

1

A **water-tight shield**, all materials in contact with the exterior are rot-resistant and insensitive to humidity. On the inside, we prefer high-quality wood.

Wide glued-aluminum profile  
Waterproof mastic at panel junctions

2

**Protective polyester (GRP) skin**, provides greater resistance to scratches, minor impacts, gravel, hydrocarbons, ultraviolet radiation and bad weather in general.

Roof in reinforced polyester (GRP)  
Polyester (GRP) skin  
Body understructure in reinforced polyester (GRP)  
With the "water channeling" effect, water won't stagnate under the floor

3

High-performance **wood and composite** combination, reinforces the structure of our walls and floors by combining composite longevity with the exceptional sturdiness of solid wood.

Reinforced structure  
Wood brackets  
Composite brackets  
Expanded composite coating

4

Extra-thick **floor and roof**, among the best on the market, offering greater resistance to loads and limiting deformation over time.

\* NB: because of its particular shape, the roof of our overcabs uses a specific technology, 34.5 mm thickness, EPS insulation.

For more information  
**scan me.**

STYROFOAM™

Improved insulation  
with well-known  
**TYROFOAM-brand**  
XPS insulation.

**Remember, if it's not blue,  
it's not STYROFOAM:  
don't forget to check...**

**Much sturdier**, thanks to floor and roof thickness.  
The floor is 63.5 mm thick, the roof is 54.5 mm  
(low profiles), well beyond standards.  
Just compare and you'll see.

A **wood/composite combination** (overcabs  
and low profiles) reinforces roof and floor structure,  
joining composite durability to the exceptional  
sturdiness of solid wood. It's unique on the market.

Better **protection** with polyester walls that are  
reinforced on the roof and floor.

**Proof of our confidence:  
a 7-year warranty!**

subject to an annual check-up by a certified  
member of our network.

The highest  
**insulation** level  
on the market,  
certified by a norm

**It's easy to say that we offer you the best;  
it's more complicated to prove it in an impartial way.**

The EN1646-1 standard makes no compromises. To obtain the highest level  
(Grade 3), the standard requires that at an outside temperature of -15°C,  
the inside temperature must be able to reach +20°C in less than four hours.

Cold room tests were made in Germany (TRUMA) and in France  
(EBERSPÄCHER KALORI).

Our tests have proven that our vans and low profiles so as our overcabs\*  
are built to face severe winters and cut down on summer heat.

Of course, for exception cold, you'll need an isothermal curtain on  
the outside of the cab (in option).

\* overcabs with heating < 5,5 kW

# Technibox

The all-in-one technical area

Accessible from a special outside door, the Technibox provides a single place for all the essential controls that ensure proper operation of your motorhome.

The Technibox is sealed with a lockable watertight door that opens on two different technical compartments:

The Technibox is standard on all our overcabs and low profiles.

## Electrical technical area

the electricity area gives you **access to the electrical panel**: no more contortions when you change a fuse!

- 1 Electrical panel
- 2 Charger/battery power
- 3 Access to fuses
- 4 Protective cover
- 8 230 V outside power outlet

## Clean water technical area

The clean water area lets you: **fill the water reservoir**, **adjust reservoir capacity** according to the number of travelers and/or the load transported, **easily clean the reservoir** for maximum hygiene.

This compartment has a tray for collecting spilled water; water won't stagnate in the compartment and drains out through the opening designed for this purpose.

- 5 Purging valve for the clean water reservoir
- 6 Cleaning hatch
- 7 Water reservoir filling with a swivel elbow

# Fuel heating

## Forget about refill anxiety

In contrast to gas, which is sometimes difficult to find in another country and may have an incompatible connection, gas oil is available almost everywhere on earth.

## Easy to use, no manipulation

Just a glance at the fuel gauge on your dashboard will tell you whether you have enough left. Forget disagreeable surprises and changing cylinders in the middle of the night. With Chausson, you won't have to bother with gas cylinders. Only the refrigerator, the hot plate and sometimes the water heater are connected to a gas supply.

## Less loaded weight and additional space

Choosing gas oil heating also means lightening the loaded weight of the motorhome. Two 13 kg gas cylinders really weigh 52 kg (13 kg corresponds to contents only). Not having to bring them along represents a significant reduction in weight. By using just one gas cylinder, you have less weight and more storage space.

## Use while on the road with total safety

In contrast to gas, which requires using a protected circuit that closes off the gas supply in case of impact, fuel heating can be used while on the road, permanently and with total safety. In addition to road comfort for your passengers, you'll appreciate finding a cozy, warm unit when you stop. Many of our competitors propose this choice in option, while others don't have it at all.

## Maximum protection for people

Because Chausson doesn't need to be constrained by a standard in order to ensure maximum protection for customers, all our motorhomes have a 30 mA differential circuit breaker as a standard feature.

In contrast to a traditional circuit breaker that protects equipment, the differential circuit breaker also protects people. It will automatically shut off the current if it detects a loss of current corresponding to defective insulation.

This device thus allows protecting against short circuits and conductor overheating in case of overload.

## Programmable digital control is standard equipment.

The digital control provides precise regulation of ambient temperature, faster heating through accelerated ventilation adjustment.

On all models with a combined heater/water heater, a "booster" function is also planned to heat water more quickly and timed programming of all functions.

# High-quality bedding

**For a little nap after lunch or a refreshing night sleep: there's nothing like a good rest before a new hike, a mountain bike circuit or a visit to see the local sites. Stretch out and enjoy, you're in a Chausson...**

## A comfortable mattress with a sturdy slatted base

### All our mattresses are:

- manufactured in France,
- specially designed for our motorhomes with high-quality foam.

### All our mattresses are encased in a drill fabric that is:

- antibacterial and anti-dust mite (for optimal hygiene),
- certified OEKO-TEX® standard 100 (free of substances harmful to health).

### On Premium low profiles & A-class models, all our mattresses (for the main bedding) have:

- high-resilience foam that adapts perfectly to the shape of your body for minimum pressure,
- a thermal-regulating Feranice covering for better dissipation of body heat,
- a layer of reinforced wadding for a soft feel and optimal-quality bedding.

Most of our main bedding comes with a sturdy slatted base as a standard feature for greater comfort and ventilation, with a metal frame for better resistance.

# From the smallest format to the largest

## VPS insulation bonuses

- Better insulation (heating/cooling),
- elimination of thermal bridges,
- better heat distribution,
- lower energy consumption,
- better soundproofing.

# 5 good reasons to choose Chausson

## Peace of mind

Designed with high-quality materials, our vans have a seven-year watertightness warranty.

## Ergonomics

All our layouts are designed to give you more room and greater storage possibilities.

## Design

Inside as well as out, your van incorporates the latest trends in lodging.

## Comfort

All our vans have Grade 3 insulation certification that provides maximum comfort in both summer and winter.

## Advice

With 160 dealers, Chausson offers one of Europe's most extensive networks. This means guaranteed support whenever you travel.
