CHAUSSON
The spirit of innovation

The good reasons to choose Chausson

Our dedicated production unit

An industrial site with the latest technology dedicated to manufacturing vans.

Since 1980, we have continued to shake up the market by offering innovations, most of which have become references. For us a special series must be exceptional at a price that defies any competition.

Chausson

This remains the case this year but, this time, we are offering a range which is broad enough to meet all needs, all budgets and all preferences...

High sound and thermal insulating power (Road Line)

Designed with high-quality materials, our vans have a seven-year watertightness warranty.

With 160 dealers,

Chausson offers one of Europe's most extensive networks.

V594 S

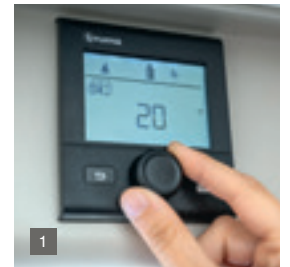

5.41 m

The ultra-compact vehicle.

Perfect for going where you want, when you want, with complete discretion, including in your everyday life.

Maxi Cab

- 1 / Road Line, comfort and savings thanks to digitally controlled heating.
- 2 / Road Line, Bathroom with window and foldable sink
- 3 / Rear bed pulls-down to gain space.
- 4 / 16" alloy wheels, exterior awning, solar panel as standard on all our vans.

5.99 m

V594

The reference vehicle.

The V594S's big brother, available here in a 5.99 m version means it offers more space and the potential for an extra bed for a child. Certainly one of the most tried-and-tested (and popular) layouts on the market.

- 1 / Large rear bed, can be folded away if space is needed.
- 2 / Specific to the First Line, the refrigerator is easily accessible from the inside and the outside of the van.

Panoramic skylight as standard.

5.99 m

Road Line 
Large sliding kitchen drawers.

V594 max

The family-friendly vehicle.

Measuring less than 6 metres, this model features 4 permanent beds. Chausson goes even further by making these beds removable for 2, 3 or 4 people.

V697

The modular vehicle.

Chausson has succeeded in meeting the difficult challenge of equipping a van with 2 good-sized twin beds. You'll love its smart storage solutions such as its double floor under the bed for storing the camping table and chairs.

Details of options: see pages 4-5.

- Weight ready for use: empty weight ready for use includes the driver's weight (75 kg) and the maximum reserve of water in circulation, 90% of fuel and 100% of gas. The empty weights ready for use on the list take into account only standard equipment upon shipment from the factory. European regulations tolerate a difference of +/- 5% on empty weight ready for use. The vehicle maker reserves the right to modify.
- Accessories and equipments fitted as an option are not included when determining the weight. Their weight should therefore be deducted from the available payload.
- You may be able to find certain heavy accessories like large blinds or generators in the marketplace. The weight of these accessories should be deducted from the payload and could possibly lead to a reduction in the actual passenger numbers. It is therefore important not to exceed the maximum loads on axles and the technically acceptable loaded weight when the vehicle is fully loaded.
- Clean water reservoir capacity for homologation (approved for our vans) is 90 L, it must comply with regulations it is up to the user to adapt loads and the number of passengers to the vehicle's loaded weight.
