

You'll adopt it immediately!

Even if you've never driven an automatic vehicle, it will take only a few seconds to convince you how easy it is to drive and how smooth gear-changing can be.

Six-ratio gearbox

When you start, either on the road or a highway, the gear ratio always adapts. It optimizes both torque and consumption.

The gearbox that learns

Your driving style and the way you use the vehicle are taken into account electronically to adapt gear changing.

Converter box

This box is more appropriate for heavy loads (and therefore motorhomes) than a robotized box. Your motorhome reacts like a passenger car, with particular ease of driving in the city and on mountain roads.

SMARTLOUNGE

Each of the two bench seats can quickly be transformed into comfortable seats for road travel.

TITANIUM

With an innovative interior design and exclusive decoration, TITANIUM fits into the line of legendary Chausson models.

With outstanding equipment, TITANIUM pushes the envelope of exception by offering automatic transmission as a STANDARD item for the very first time.

This exclusive series proposes four models based on the market's favorite layouts and available with an island bed, twin beds or a maxi lounge.

TITANIUM: exclusive excellence...

708 / 768XLB
Optional electric
hideaway bed

708 / 768XLB

EASY BED

All our island beds can be height-adjusted over a distance of 30 cm.

- Reversing camera
- Luxury entrance door with window
- Flyscreen door
- Central locking cab/cell
- Exclusive interior/exterior decoration
- Polyester side walls "Taupe gray" shade
- Illuminated window surround in kitchen
- Etc.

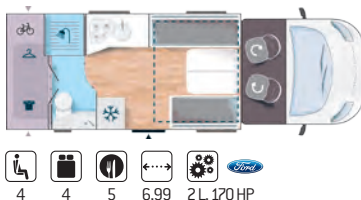

- The optional "towing" equipment can in certain cases change the number of passengers on the car registration papers. Your dealer will be able to give you more information.
- Weight ready for use: empty weight ready for use includes the driver's weight (75 kg) and the maximum reserve of water in circulation, 90% of fuel and 100% of gas. The empty weights ready for use on the list take into account only standard equipment upon shipment from the factory. European regulations tolerate a difference of +/- 5% on empty weight ready for use. The vehicle maker reserves the right to modify.
- Accessories and equipments fitted as an option are not included when determining the weight. Their weight should therefore be deducted from the available payload.
- You may be able to find certain heavy accessories like large blinds or generators in the marketplace. The weight of these accessories should be deducted from the payload and could possibly lead to a reduction in the actual passenger numbers. It is therefore important not to exceed the maximum loads on axles and the technically acceptable loaded weight when the vehicle is fully loaded.
- Clean water reservoir capacity (approved for our overcabs/low profiles/A class) capacity is 1 L, must comply with regulations vis up to the user to adapt loads and the number of passengers to the vehicle's loaded weight. To do this, clean water reservoir capacity can be adjusted by the user to avoid reducing the number of passengers.
- Some models photographed in this catalogue may be shown with equipment supplied as an option. The characteristics of photographed models may vary from one country to the next. Despite the care taken in producing this catalogue, this cannot be viewed as a contractual document. Chausson reserves the right to modify its models without prior notice. Chausson cannot be held liable for any modifications made by its suppliers nor typographical errors when printing these documents. It is forbidden to reproduce, even partially, text or document. Do not litter the public highway.
- Your retailer is at your disposal to advise you and provide you with any additional information.
- Where there are multilingual versions, the French text is the binding version.

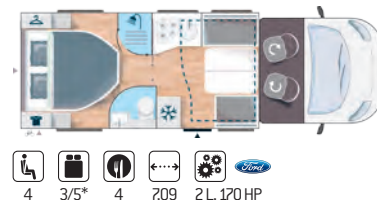

These layouts
are also available
in classic version
on Fiat or Ford
